

THE INCA DISTILLERY

Fine Peruvian Spirits

About us...

The first peruvian craft distillery // 2015

PASSION FOR DISTILLATION

The production by 2019

Up to 80.000 x 700ml. Bottles

Due to the growing demand, we expect to expand our production capacity to 200,000 bottles by mid 2020 through the acquisition of new distilling equipment.

Our mission...

Create the best new western gins, showing the richness, flavors and culture of Perú & Amazonas.

Our vision...

To be a leader in the “top niche” and “small batch” gin industry while developing distribution chain around the key markets including a high level of excellence with our liquids, packaging and marketing.

“COOPER” our best friend.

CARL - Made in Germany.

The Inca Distillery use the best worldwide distilling technology, obtaining the most refined spirits on the market and the finest aromas.

5 Distillations – Very Small Batch
Only 140 Bottles per batch.

The first distilled gins made
with sugar cane spirit (vodka).
Finca Manuelita, Laredo,
Trujillo, Perú.

100% Peruvian sugar cane spirit.

Finca Manuelita, Trujillo. 96°Alc.Vol. of the purest sugar cane spirit.

We only use demineralized and chemically pure water from the Andean Mountains.

Our spirits have the cleanest structure on the market with the lowest levels of toxic substances, checked continuously by our associated laboratory.

AMAZONIAN

— GIN COMPANY —

AMAZONIAN
—GIN COMPANY—
RARE AMAZONIAN
DISTILLED GIN

AMAZONIAN
—GIN COMPANY—
RARE AMAZONIAN DISTILLED GIN
700 ML. | 41% Vol.

The first ultra premium gin in the world, distilled (*)only with fresh and selected fruits and spices from the Amazon rainforest.

(*) Juniper berries are imported since they do not grow in the southern hemisphere.

We use extra-neutral 96° Alc. Vol. sugar cane spirit (vodka) making Amazonian Gin smoother and softer than the average.

Probably the most exotic craft gin in the world, already present in 15 countries.

TASTING NOTES:

In the nose is very fresh with an exotic citrus and fruity touch, dry profile and ideal for mixing in cocktails and gin and tonics.

In the mouth is dry, with citrus and menthol notes, mainly to amazonian cider lemon, juniper and nuts.

We only use pure fresh natural fruits, selected and handpicked by amazonian farmers and also nuts such as amazonian chestnuts and sacha inchi (inca nuts).

Goldenberries
(Physalis)

Camu
Camu

Amazonian
chestnuts

Macedonian
juniper berries

Amazonian
cider lemon

Amazonian
sweet lemon

Tonka
beans

Sacha
Inchi

We do not use any added flavors, artificial flavoring or sweeteners. Every single drop of Amazonian Gin is slowly distilled with our copper column still.

HANDCRAFTED – VERY SMALL BATCH

Every single fruit is selected and hand pilled for distilling **just 140 bottles per batch**. That way we get the superior quality and the finest aromas of Amazonian Gin.

SOCIAL RESPONSABILITY

We pay the farmers we work with a fair price for every single fruit we use, trying to help them to have a better life every day.

We take our responsibility very seriously to help our fellow citizens and the peruvian society for the right development of our country.
